THE GLADIOLUS AS A GARDEN Dear Social Corner Sisters: I will say a few words in favor of the gladiolus, a cultivated flower I greatly admire. A very decided saving can be made by doing one's own painting and paper-hanging and this is not so difficult as many suppose.

Drapery curtains also add much to a room. If one's purse is very limited one need not despair as dainty and serviceable curtains may be easily made from cheesecloth.

I believe if a few friends gather and enjoy playing cards for merely a pastime, it is quite another thing from making a practice of it, week after week. Mothers gather and spend a whole precious afternoon playing for some simple little gift any of us could buy, and at home the week's mending is waiting or children coming home from school looking for mother and not finding her with a welcoming smile or cheerful word. They often go places and do things very different from what they would do if mother was not at the card party.

There are many ways a woman can make herself useful and worth while just now at this critical period of the hatton's history.

Without one is wealthy it is about all one woman can do if she has any family at all to make both ends meet in these times of high prices.
